Nanobit is Croatia's largest game development studio with a series of hit titles in the world of mobile games. Working in a great atmosphere, we create fun for people all over the world and our main goal is to make both our players and our team members happy.

All our games are developed entirely in-house and placed on the international market. This means that we have interesting projects and tasks for you and that we set our own deadlines. After more than 7 years of successful work, over 25 published projects and with a great team of 75 employees, we have big plans for further growth and new challenges.

If you are interested in advancing in the field of system administration and applying your knowledge in practice under the guidance of a skillful mentor, this is a great opportunity for you!

We're looking for a:

SYSTEM ADMINISTRATOR – TRAINEE (M/F)

Job description:

- Configuration and maintenance of Microsoft Windows and Mac OSX operating systems
- Installation and configuration of new users' computers
- User support and administration of user database using Active Directory and Office 365
- Supervision and monitoring of the network system
- Research and integration of new technologies and solutions into the existing system

Your profile:

- Knowledge of the Microsoft Windows operating system with an emphasis on working in a Windows server environment (AD, Radius, Hyper-V)
- Basic knowledge of the GNU/Linux operating system
- Basic knowledge of at least one scripting langugage (Python, Bash), as well as tools like Git, Ansible
- Knowledge of basic networking concepts (DNS, DHCP, WAN, LAN, FTP, HTTP, routing, wireless)
- Ability to detect emerging issues and proactively propose possible solutions
- You have full-time student status with associated student rights (preference will be given to students in their final year)

Why Nanobit?

We work in a highly advanced and dynamic industry and we are not limited by the bureaucracy of larger systems, yet we already have a lot of experience and well-defined work processes.

In addition, working at Nanobit means:

- Working with top-quality equipment in a modern and comfortable space in the center of Zagreb
- Great colleagues and a friendly atmosphere
- Excellent working conditions
- Flexible working hours (20-30 hours per week)
- Membership at the fitness center nearby at a reduced price
- Regular visits to the kitchen with an endless supply of drinks and snacks (both healthy and less healthy ones)
